

Form for Gathering Teacher Examples

This template is designed for you to gather specific examples of classroom strategies that help define or illustrate your teaching performance standards.

To complete the form, write a specific performance component from your teaching standards in the Performance Area column. Continue this process until you have filled in all rows in the column. Next, in each row in the Specific Example column, record a clear and specific example that illustrates each performance area. Finally, in the last column, explain how you think each specific example matches or illustrates the performance area.

Performance Area	Specific Example	How the Example Illustrates Successfully Meeting the Performance Area
