PS = Parallel Support

Note 1: For more information, see *Scheduling Strategies for Middle Schools* by Michael D. Rettig and Robert Lynn Canady.

Note 2: Lunch periods can be flexible if scheduled with EEE periods.

Note 3: Time periods can be adjusted to allow for transition time.

Note 4: Trailer courses are designed for students to master standards NOT MASTERED in previous course work; trailer courses are not just course repeats.

*E = Extended time for student support; for example, re-taking assessments, completing homework assignments, using computer lab, re-teaching, receiving parallel support (PS) and/or spending time with advocate/tutor.

E = Elective for selected students. This period also may be needed for trailer courses for some students, hopefully, for a temporary period of time. For students needing more support time, additional support periods can be constructed from the core blocks.

E = Enrichment/Exploratories for selected students.
